

## SAFETY

All Americans should feel safe at home

Whether it's walking the streets of your neighborhood or being in the comfort of your own home, you should not have to fear undocumented aliens or vagrants hiding behind the euphemism "Homeless." Unfortunately, that's a reality for many communities.

The issue for all of us is an illegal enterprise has taken control of the government.

The Biden Administration is not enforcing Border laws and regulations, allowing literally millions of undocumented aliens into the United States. Each of us is impacted by this practice.

The Democrats are not enforcing laws to keep us safe from repeat criminals. If the Justice Department refuses to protect our Supreme Court Justices, why would we think we'll be protected?

I will work to strengthen Stand Your Ground Protection, and pass legislation to limit the threat from drug users, mentally ill criminals and deviants who prey on our older population and children.
